CORES

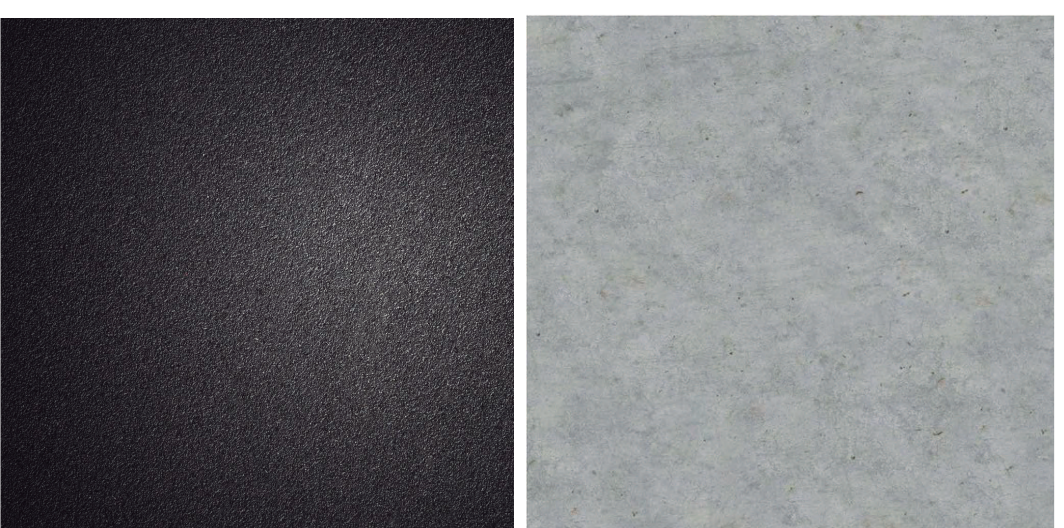

As cores utilizadas em mobiliários, decoração e equipamentos tem como objetivo trazer vida ao projeto, com cores chamativas que transmitem alegria. As cores foram inspiradas no arco-íris, uma das obras de arte mais lindas da natureza. Além disso, para possibilitar mais jogos de cores foi criada uma paleta de cores com tons mais claros.

MATERIALIDADE

A materialidade da edificação buscou manter tons neutros para permitir o uso de cores em outros detalhes do projeto. Além disso, com essa escolha o projeto se mantém versátil e atemporal.
